1. Notice Regarding Propositions for Changes in the International Code of Zoological Nomenclature.

Attention of zoologists is invited to the rule that all propositions for changes to the International Code must be in the hands of the Commission at least one year before the meeting of the International Congress.

Formal notice of the exact date of meeting has not yet reached me, but I hope to have my first report to the Commission prepared for mailing not later than September 1. About on that date I shall also send to Science and to the "Zoologischer Anzeiger" a complete list of the propositions that have been sent to me.

It is a great satisfaction to the Commission to note the increased and more general interest exhibited by zoologists in nomenclatorial matters, and I take the liberty of repeating a statement made on several former occasions, namely, that the Commission welcomes most heartily correspondence and suggestions from all zoologists.

C. W. Stiles,

Secretary, International Commission on Zoological Nomenclature.
