Recent Plecoptera Literature

This section includes the Plecoptera papers published since PERLA 5 was mailed as well as some additions of older literature. PERLA is published every two years and a literature section is included in every issue.

Please help us to make this section as complete and correct as possible by sending us copies of your publications and/or notes on errors found.

Nachr. 25(6):85-88. (German, English and Russian summaries).

CORRARINO, C.A. and M.A. BRUSVEN. (1983): The effects of reduced stream discharge on insect drift and stranding of nearshore
