

published by *Illiesia*. This will allow your paper to resolve back to our server location even if we someday move to a different server. An added feature that we will obtain from this registration is the ability to track who cites your work. In order for this to work, we contribute to the community of users at Crossref by submitting properly formatted references from your paper. There will be some cost for registration (born by INHS), but the editors believe that the result will help you to justify publishing in *Illiesia*.

Once again in 2016, we continued to register journal articles with ZooBank (<http://zoobank.org>) and have archived papers in CLOCKSS (<https://www.clockss.org>). If you have other ideas on how to improve the journal, please send them by email to [dewalt@illinois.edu](mailto:dewalt@illinois.edu).

## ANNOUNCEMENTS

### First announcement

The 2018 Joint Meeting of the XV International Conference on Ephemeroptera and XIX International Symposium on Plecoptera will take place in **Aracruz, Brazil**, from **03 - 08 June 2018**. The conference will be held at the SESC Praia Formosa, a pleasant place located less than one hour (or 45 km) from the airport of Vitória, capital of Espírito Santo. With more than 200 rooms, conference halls, exposition areas, restaurants, and a huge area in front of the beach, SESC Praia Formosa is the perfect place for hosting the conference in Brazil. Further details about the program, accommodations and post-conference trip will be given in the second announcement (scheduled for May). The third announcement (scheduled for August) will contain details on fees, availability of conference scholarships, call for papers and instructions for authors, and forms for conference registration and dormitory reservation.

Please, if you wish to receive the next announcements, fill the attendance interest form at the following link <https://goo.gl/forms/aBm4has2kUWMmWcJ2>.

## Caddis Press Books Available Ed DeWalt

Brian Armitage, former Director of the Ohio Biological Survey (OBS) and editor of the Caddis Press retired a few years ago to the mountains of Panama. I took on much of his collection from the OBS and currently have an NSF grant to incorporate specimens and digitize label data—a big job because Brian was an avid collector!

Recently, he offered me at no cost (well, I had to drive to Ohio and overload my pickup) the remainder of his Caddis Press books (three Plecoptera titles, Diptera & Trichoptera as well). I will begin selling these books as soon as I can get the mechanism in place to put the proceeds into a gift account at the INHS. I will use the funds to support costs of *Illiesia* and *Perla*. The first batch of books is being sold to Bioquip this month, and I will know more soon about how this works. I have some 500 books to get rid of before I retire, so please buy them. Below is a list of what I have. Contact me at [dewalt@illinois.edu](mailto:dewalt@illinois.edu) if you want one.
